HACKATHON

Innovation Marathon

48 hours 12 & 13 Sep 2025

GUIDELINES FOR HACKATHON

INNOVATION MARATHON 2025

- Innovation Marathon is based on 5 Domains
 - 1) Management
 - 2) Agriculture
 - 3) Industries
 - 4) Social Problems
 - 5) Technology
- Select any one domain from the above.
- Based on the selected domain, prepare an innovative/novel idea in the form of a PDF.
- Upload the PDF with the registration fee of INR 100/- per member (3 Members per Team) in the Google Link: <https://forms.gle/pzrCueqY2cRBj8AP6>
- The last date for the registration is 17th August 2025.
- The last date for the Project proposal submission is 20th August 2025.
- Teams shortlisted for the final round will be announced on 24th August 2025.
- Teams shortlisted for the final round will have to pay a fee of INR 500/- per Member (3 Members per team).
- They shall have to give presentations in offline mode on the 12th and 13th of September, 2025.

DESCRIPTION OF DOMAINS

1) Management:

The Management domain in the hackathon focuses on developing innovative solutions to streamline business operations, enhance decision-making, and optimize organizational efficiency. Participants will tackle challenges related to project management, resource allocation, leadership strategies, and workflow automation. This domain encourages creative problem-solving in areas like team collaboration, data-driven management, and agile methodologies, aiming to revolutionize traditional practices with technology-driven approaches. Whether improving productivity tools or reimagining organizational structures, this track empowers participants to build solutions that drive impactful change in the corporate world.

2) Agriculture

The Agriculture domain in the hackathon focuses on leveraging technology to address critical challenges and drive innovation in farming and food production. Participants will explore solutions like precision farming, IoT-based monitoring, AI-driven crop prediction, and sustainable practices to enhance productivity, reduce waste, and optimize resource use. Themes may include smart irrigation, soil health management, supply chain transparency, and climate-resilient farming. Whether it's using drones, blockchain, or data analytics, this domain encourages creative tech-driven approaches to empower farmers, improve yields, and ensure food security for a growing population.

3) Industries

The hackathon will focus on a diverse range of industries, each offering unique challenges and opportunities for innovation. Key domains include Healthcare, where participants can develop solutions for telemedicine, AI diagnostics, healthcare products or patient data management. FinTech will explore blockchain, digital payments, and fraud detection, while Retail & E-commerce will tackle personalized shopping, supply chain optimization, and AR/VR experiences. Smart Cities & Sustainability will address IoT-enabled infrastructure, renewable energy, and waste management. Education Technology invites ideas for immersive learning, gamification, and accessibility tools. Additionally, Automotive & Mobility will focus on autonomous vehicles, EV charging networks, and smart logistics. Each domain encourages disruptive thinking to solve real-world problems with cutting-edge tech.

4) Social Problems

Social problems encompass a wide range of issues affecting communities and individuals, often rooted in inequality, injustice, or systemic failures. These challenges include poverty, homelessness, gender discrimination, racial inequality, lack of access to education, mental health stigma, and environmental degradation. Other critical concerns are cyberbullying, human trafficking, and inadequate healthcare systems. Addressing these problems requires innovative solutions that leverage technology, policy changes, and community engagement. Hackathons focusing on social problems encourage participants to develop creative, scalable interventions such as apps, platforms, or awareness campaigns that can drive meaningful change and improve lives globally.

5) Technology

The Technology domain at the hackathon encompasses innovation in software, hardware, and emerging tech solutions. Participants can explore areas like AI/ML, blockchain, IoT, cybersecurity, cloud computing, AR/VR, and quantum computing. Projects may include developing smart applications, automation tools, decentralized systems, or next-gen infrastructure. This domain encourages leveraging cutting-edge tech to solve real-world challenges, optimize processes, or create disruptive digital experiences. Whether building scalable platforms, intelligent algorithms, or immersive interfaces, coders, engineers, and tech enthusiasts can showcase their skills in pushing technological boundaries.

ABOUT THE EVENT

- It is a National Level Hackathon.
- It is a 48 hours event starting on the 12th of August 2025 and ending on the 13th of August 2025.

RULES AND REGULATIONS

- Each team consists of 3 members (At least One Female participant in a team is encouraged).
- All team members must be from the same institution.
- Participants are allowed to be part of only one team.
- The mentor can be a Faculty from your respective University/College.
- Mentors can guide the participants during the hackathon.
- The Mentor is optional.

PROJECT SUBMISSION GUIDE

- Teams must submit their Complete design and concept through the assigned Registration link.
- The project proposal must include:
 - a) PDF files
 - b) A YouTube video link (set to Private)
- The Project proposal (PDF) should contain the following details
 - a) First page with logo
 - b) Project Title
 - c) Team details
 - d) Problem Statement
 - e) Existing solutions
 - f) Team's solution
 - g) Execution

IMPORTANT POINTS

- Teams shortlisted for the final round will have to pay a fee of INR 500/- per member (3 Members perTeam).
- Presentations in offline mode on the 12th and 13th of August, 2025.
- Accommodation and meals will be provided in the College Hostels.
- No travel allowance will be provided.

STEPS FOR REGISTRATION

- STEP 1: Fill out the registration form with all the necessary information. <https://forms.gle/pzrCueqY2cRBj8AP6>
- STEP 2: Participants have to make payment on the given QR Code:

SACRED HEART COLLEGE

PRIZES :

First position - Rs. 100000/-
Second position - Rs. 75000 /-
Third position - Rs. 50000 /-

ORGANIZING COMMITTEE MEMBERS

CONVENOR

Rev. Dr. S. Bharathi Bernadsha, President, IIC, Department of Physics
Dr. P. Saranraj, Assistant Professor, Department of Microbiology
(+91-9994146964)

PROGRAM COORDINATOR

Dr. I. James, Assistant Professor, Department of Commerce

COMMITTEE MEMBERS

Dr. A. Royal Edward Williams, Department of Economics

Dr. S. John Sundharan, Department of Physics

Dr. M. Manigandan, Department of Microbiology

Dr. K. Sheela, Department of Biochemistry

Ms. R. Nisha, Department of Microbiology
